**FUN IN THE SUN**

Palm Springs and her desert area neighbors, are America's foremost desert resorts for fun, relaxation, and health. There are ten golf courses, three in Palm Springs, and seven in the near vicinity and more under construction making the desert area the "Winter Golf Capital of America." For the more indulgent guest horseback riding, tennis, bowling, volleyball, horseshoes, archery, bicycling, shuffleboard, golf driving ranges, skeet club, hiking, boating, water skiing at the Salton Sea, (where on the north shore are a few miles of public beaches) and trout fishing in White-water Canyon. For a laugh and a thrill, ride the Burro train. There are many fine swimming pools, and three movie theatres (several more in the planning stage). Three legitimate theatres & the Palm Springs Spa and Desert Highland Hot Springs hot mineral baths. While Palm Springs is favored with an abundance of pure cold mountain water from towering Mt. San Jacinto, this same mountain has made the Village immune from the coastal fogs and keeps the atmosphere dry and clear. There are several natural, mineral hot springs for those with minor ailments. The Palm Springs Guide, free & informative, will keep you abreast of the times and help in making your stay a pleasant one. Look for one at your hotel, department store or many other places.

Although Palm Springs has received much publicity about its high prices, one may rest assured that such prices are not prevalent everywhere. There are a number of swank places, but this can be expected at every resort where price is no object. On the other hand, the majority of the hotels and restaurants cater to those of limited means, with the result that prices are no higher here than elsewhere. The local people are only too happy to cooperate & there is no doubt that once you visit this delightful resort, a return is assured.

Your trip to Palm Springs will not be complete until you visit the interesting date shops and the greatest date growing center of the world. "Date Garden Drive Hiway 111."

Several companies arrange sightseeing tours by bus, limousine or airplane to innumerable side trips, such as Palm Canyon, Tahquitz Canyon and Falls, Palms-to-the-Pine Highway and many other points of interest. There are many restaurants and nite clubs for entertainment, dining and dancing. The old west is still alive here, so bring along your western duds for the old-fashioned square dances and breakfast rides. Cameras click on more movie celebrities than in any other spot of sun-worship. Serene and beautiful, the desert awaits you with health and new vitality in every sun-drenched day.

## AMERICA'S DATE GARDENS

Your trip to Palm Springs will not be complete unless you visit the interesting date shops and the greatest date growing center of the world. "Date Garden Drive Hiway 111."

The Gardens begin just a few miles from Palm Springs, but it is not until one has driven about 8 miles toward Indio that the more extensive gardens are encountered. Here, the tall majestic pillars of the trunks, topped with their crowns of graceful fronds, extend in rows for miles on either side of the highway.

Lying east of Palm Springs is an agricultural area which has no parallel on the American continent. To the visitor traveling over the roads which lead through Coachella Valley to Indio, it seems as though some magic carpet had suddenly whisked him half-way around the world into a bit of the Oriental East. For this desert valley, irrigated by water pumped from wells, in the heart of a new and thriving American industry whose Old World beginnings go back as far as the history of man.

The date gardens are the pride of the Coachella Valley. Although dates are grown in some other localities in this country, nowhere else do they thrive as they do in this warm sunny corner of the Southwest.

**SHIELDS' DATE GARDENS:** See and hear the talking colored pictures "Romance and Sex Life of the Date" continuous showing 8 a.m. to 6 p.m. Free admission.
